Sun StorEdge[™] SDLT 220 and SDLT 320 Desktop Tape Drives

High-capacity, high-throughput standalone superdrives.

Simple migration path

The desktop tape drives are backward-read compatible with DLT tape IV media. You can leverage your investment in DLT media, because the new drives read data on older tapes.

Lower media and storage costs

The Sun StorEdge SDLT 220 tape drive has a native capacity of 110 GB with native throughput of 11 MB/sec. The Sun StorEdge SDLT 320 tape drive has even higher specifications, with a native capacity of 160 GB and a native throughput of 16 MB/sec. You can lower your media and storage costs by using fewer tapes.

Faster backup and restore

The high-performance transfer rates provide significantly faster backup and restore than DLT8000 drives.

Manage your data with significantly shorter backup windows for higher performance and increased productivity.

The Sun StorEdge™ SDLT 220 and SDLT 320 desktop tape drives are single-drive tape options for the backup of workstations, servers, and small databases. They deliver reliable protection, including backup and retrieval, of your valuable data. The higher capacity of these superdrives means that you need fewer cartridges, resulting in lower ongoing investment costs. With significantly higher capacity and speed than the DLT8000 drives, these tape drives can help you gain significant savings per GB of storage. The drives complement Sun's full portfolio of data continuance solutions. These solutions provide multiple levels of data and application protection, availability, and recoverability backed by comprehensive services and support.

Sun storage solutions—providing you with comprehensive hardware, software, and services to solve your business challenges enterprise-wide.

Sun StorEdge[™] SDLT 220 and SDLT 320 Desktop Tape Drives

Specifications

Library and Robotics		SDLT 320	SDLT 220	Environment (continued)
Tape cartridge capacity (native)		160 GB	110 GB	Operating air velocity
Sustained transfer rate (native, narro	ow and wide)	16 MB/sec	11 MB/sec	Flacture I water a
Read/write tape speed		122 ips	116 ips	Electrical rating
SCSI bus transfer rates (LVD Ultra2)				Communication interface
Narrow, compressed, sustained		22 MB/sec	22 MB/sec	Regulations
Narrow, burst maximum		40 MB/sec	40 MB/sec	Safety certifications
Wide, compressed, sustained		22 MB/sec	22 MB/sec	Salety Certifications
Wide, burst maximum	80 MB/sec	80 MB/sec		
Tape load time to BOT (typical)		12 sec	12 sec	Electromagnetic emissions <i>Type</i>
Unformatted tape		40 sec	40 sec	EEC Directive 89/336 CE
Unload from BOT		12 sec	12 sec	
Average access time (from BOT)		70 sec	70 sec	CFR 47, 1995
Maximum access time (from BOT)		142 sec	142 sec	IECS-003
Average rewind time		69 sec	69 sec	V-3/97.04
Maximum rewind time		140 sec	140 sec	AS/NZS 3548
Rewind tape speed		160 ips	160 ips	CNS 13438
Linear search tape speed		160 ips	160 ips	Conducted emissions
Engineered drive life		7 years	7 years	Frequency Range
Drive head life (tape motion hours)		30,000	30,000	0.15 to 0.050 MHz
MTBF (power-on hours)		250,000	250,000	0.50 to 5 MHz
Tape life (passes)		One million	One million	5 to 30 MHz
Software				Radiated emissions
Operating environment	Solaris™ Operatino	g Environments 7, 8, ar	nd 9	
Software compatibility	Solstice Backup™ software 6.1 or later VERITAS NetBackup software 3.4 or later			Frequency Range
				30 to 230 MHz
Hardware				230 to 1000 MHz
Supported platforms	Sun Blade [™] 1000 and 2000 workstations		Above 1000 MHz	
Supported platforms	Sun Enterprise "220R, 250, 420R, 450 servers Sun Enterprise X500 servers Sun Fire" 280R, 480R, V880, V1280, 4800, 4810, 6800 servers Netra" t 1120/1125, 1400/1405 servers			
				Dimensions and Weight
				Height
	Sun Ultra [™] 60 and 80 workstations		Width	
			Length	
Environment				Weight
Operating	10°C to 40°C (50°F to 104°F)		Shipping weight	
	20% to 80% relative humidity, noncondensing			
Nonoperating	-40°C to 66°C (-40°F to 150.8°F)		Warranty	
	10% to 95% relative humidity, noncondensing		One year	

Operating air velocity	125 LFM average air velocity measured directly in front of the bezel			
Electrical rating	100 to 240 VAC, 65 W (internal rating) maximum, 47–63 Hz			
Communication interface	MSE (LVD or SE) bus 8-bit single-ended or differential			
Regulations				
Safety certifications	Meets UL 1950, CSA C22.2 No. 950, GS mark, and N60950/ IEC 950 certifications			
Electromagnetic emissions <i>Type</i>	(Complies with FCC Class B limit Regulation/Certification	(Complies with FCC Class B limits.) Regulation/Certification
